

CREDIT CARD PRESS RELEASE
Town of Orange
Tax Collector

Sandra Pierson, CCMC Tax Collector for the Town of Orange would like to announce that the tax office will be set up to process online tax payments by credit card, debit card or e-checks beginning February 16, 2016.

Tax bill numbers must be included to define where the payment is to be applied.

Tax information is public information. The Town of Orange's goal is to provide this information to taxpayers and their agents in order to facilitate timely tax payments.

Along with online viewing this service is available so that taxpayers can easily inquire and pay Real Estate, Personal Property and Motor Vehicle tax bills that are due, print a duplicate record from your computer and review any payments that have been made on accounts.

The data base is updated on a daily basis so you can quickly and easily make online tax payments. Tax payments do not show until they are processed. If you are seeking a definitive answer as to what or how much you owe, there is no substitute for speaking one on one with a tax collector's office employee.

Credit/ debit card payments are **NOT** accepted in the tax office or by telephone. Everything must be done through Point & Pay. Go to the Town of Orange web-site, tax collector and click on the link.

Please note there is a fee for this service, the link will advise you of the amount prior to submitting your transaction.

Visit the Tax Collector's website on February 16th for complete information.
